CERTIFICATION WORKSHOP FOR INSTRUCTORS PROVIDING DRIVER TRAINING TO PERSONS WITH DISABILITIES

Course Purpose

To provide a specialized training program for driving instructors seeking certification from the Ohio Department of Public Safety to teach driver training to individuals with disabilities.

Course Objectives

- Participants will be able to identify the general characteristics associated with various types of disabilities and their implications for driving
- Participants will be able to identify various types of adaptive driving controls and systems and their operational characteristics.
- Participants will gain an understanding of the driver rehabilitation process and the related reports and documentation.
- Participants will be able to identify the specific driver training considerations for individuals with disabilities.
